

For You I Will

It's not my **style to dance** away the night
Or go for a walk beneath the full moonlight

And I don't wish on falling stars
Or easily give away my heart

But girl, for you I will
Can't hide this love that I feel
Never been the kind of guy
To fall in head over heels
But girl, for you ... *I will*

It's not **like me at all** to talk about
The likelihood of finally settling down

Couldn't speak the words "I love you"
Or find the courage to say "I do"

[Chorus]-[Chorus]
