

# Hillbilly Rock

G

It comes from Mississippi, and down in Alabam  
Creepin' like a fever - all across the land  
From deep in the Delta on the Louisiana shore  
The people got to have it, they wanna hear some more

It's the hillbilly rock, - beat it with a drum  
Playin' them guitars like shootin from a gun  
Keepin' up the rhythm, - steady as a clock  
Doin' a little thing called the Hillbilly Rock

Some say it came from Memphis down in Tennessee  
Or it drifted in from Georgia about 1953  
Just as long as it's greasy, as long as it's fast  
As long as it's pumpin' honey, it's gonna last

[ C ] - < Lead >

Way back in old Kentucky where the bluegrass grows  
Through the Carolinas on them dirt red roads  
Burnin like a fire runnin' wild in the woods  
From Arkansas to Texas, it sounds so good

[ C ] - < Lead >

So when the heat starts to risin' & you gotta blow some steam  
Take a ride down the river, - you'll see just what I mean  
The juke joint's jumpin, when that cat goes on  
The whole place is shakin', there's a something goin' on
