

# I Should Know

The Mavericks  
1998 m1

Setup - 2 passes

- Every night alone
- Every night I spent without you
- Every little thing about you  
Runs right through my mind

- I wonder where you are
- And do you ever think about me
- And if you get the feeling that  
There's something missing too

But - I should know  
You'll never come back to me  
Even though I will always love you  
I should know ...

- I'm the one to blame
- Something I did fine without you
- I could fool myself  
And tell me everything's alright
