

Loving You Easy

Zac Brown
2015

Every morning when you come downstairs
Hair's a mess but I don't care
No make-up on, shining so bright
My old sweatshirt never fit so right

Dancing around to the radio
Humming the words that you don't know - Cross out...
finding an angel off my list
Thinking that it don't get no better than this

You make loving you easy
You make loving you all I wanna do
● ● *Every* little smile, ● ● *Every* single touch...
... reminds me just how much it all makes
Loving you Easy

Wrapped around me late at night
Pillow talk by candlelight
Come slow this down and make it last
The best things fly by - so - fast
