

# Loving You

The Mavericks  
- 1995

You're everything I'll ever need beside me  
Because of you, I'm never feeling blue  
Just promise that you'll stay with me forever  
So I can spend my whole life loving you

I want to wake up in your arms each morning  
The same place that I've been  
the whole night through  
I'll whisper in your ears - sweet nothings  
And then I'll spend my whole life loving you

- 
- I never dreamed
  - You'd be with me
  - Please make this last
  - Eternally

I miss you darlin' when we're not together  
Believe me when I say my love is true  
Just promise that you'll stay with me forever  
> So I can spend my whole life loving you
