

Nothing On But The Radio

Gary Allan

Cause I have never felt one so right
Each look into your eyes, I'm falling

Wrapped up in flames of desire
With every touch, they're burning higher
Two shadows dancing on the wall

With nothing on but the radio**

In tangled sheets, we'll be here all night
And when we wake up in the morning
We might stay like this all day

Two people meant to be together
Two lovers dreaming of forever
And it just keeps on getting better
