

Party Crowd

David Lee Murphy '94

Full Intro

She couldn't keep from cryin'
- when she told me goodbye
I knew Lord it was breakin' her heart,
- and she was breakin' mine
For the sake of her feelings & the sake of my pride
I told her not to worry 'bout me
So I'm sittin' here soakin' up the neon lights
Misery looking for some company

Tonight I'm lookin' for a party crowd
Slammin' 'em back - and laughing out loud...
Where the smoke's so thick
- the blues can't hang around

With the jukebox a jumpin' like it just don't care
If they're dancin' over here or fightin' over there
I'm makin' the rounds, looking for a party crowd

It'll dawn on me tomorrow - wherever I wake up
I'll look back and try to recall
- just where the heck's my truck
So take my keys and lock em up tight,
- let the good times flow
I'll worry bout tomorrow when it comes to light
The night's still young and I'm on a roll
