

WHEN WE WERE IN LOVE

If I could invent a time machine
- and maybe we'd both be 17
- cruisin in my first ca
- & actin like movie stars on Fridy nite
do you remember those Friday nights

< CC >

When we were a rock - ready to roll
- there was a fire - down in our soul
and all the whole world - had to stand still
- and turn around us - cause that was the deal
and oh how those nights - went flowing like wine
- when I was all yours - and you were all mine.
& we were in love -yea we were in love

I can still see you when I sleep
-There is a picture I still keep
You with your hair in the wind
- and me with that crazy grin
under the summer sky
and dreams were too young to die.

< CC >

*Oh I know I know it sounds crazy,
but baby you're still the one.
So let's find a way to bring back the days
when our hearts were forever young.*
