

Young World

It's a young world

When you're in love, you're in a young world

So take my hand and let me show you

Just how true - young love can be... *whoa- oh*

It's a young world

And if you'll tell me you're my one girl

You'll make my whole life worth livin'

Just by givin' your love to me

[C]

All of the world is a treasure

When you have someone to care

Promise me your love for-e-ver

We'll have the whole world to sh-a-are

V

And it's a young world

When you're in love, you're in a young world

If you believe what I've told you

Let me hold you, say you love me
